Warm up to the feel-good hit about old friends reunited for one memorable weekend. College classmates who shared the '60s experience meet again as '80s adults . . . more or less. A remarkable ensemble cast portrays the over-30 crowd as they remember, laugh, cry, argue and embrace. It's about different life paths, different kinds of growing up and "selling out," and one special kind of joy. Powered by a smash soundtrack of '60s hits like "I Heard It Through the Grapevine." *Adult language, nudity.* (R-1:45) **Oct. 21,26,30** (CC)

An HBO Original Drama

With

as themselves

It may be later than you think. This chillingly realistic drama portrays what *could* be a true scenario for the outbreak of World War III. Presented from the point of view of a television news team, the shocking events are not science fiction but science fact, based on an authentic military study of how a nuclear war could start. Scott Glenn, Michael Murphy, Helen Shaver and Patrick Watson star as the TV reporters in this compelling, timely drama about the imminent danger of war. **October 14,18,24,29**
